

RoHS  
Compliant

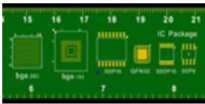

## Features

- 2 Layer Board
- Green Oil, and White Characters
- Size : 30.87cm × 3.2cm
- Board Thickness : 1.6mm  
1oz Copper Thickness, Immersion Gold

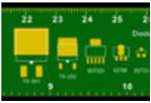

## Explanation of different part of the ruler

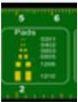

Ruler should fit perfectly to determine the size of the screw.

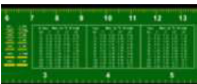

Common surface mount IC package layouts.

Common surface mount diode and transistor package layouts.

Common passive component surface mount pad sizes.

This chart shows the maximum current different sized external traces can handle, and shows the corresponding temperature rise

Can be used to measure the copper trace widths on a PCB.

The space between the pads of a surface mount component.

## Part Number Table

Description	Part Number
PCB Ruler, FR-4 Material, Green, White Text	MP013619
