### Description

These Twist Black Oxide Drill Bits crafted from high-grade HSS4341 steel, designed to deliver durability and precision for drilling into a variety of materials. Built to DIN338 standards and engineered with a 118-degree point angle, these bits ensure smooth and precise drilling with minimized walking on contact. The black oxide finish not only enhances corrosion resistance but also reduces friction, promoting faster drilling speeds and extended bit life. Ideal for both professional and DIY projects, these drill bits are a versatile addition to any toolkit.
