

4-Port USB 2.0 Hub, USB Bus Powered, Small Travel Mini USB Hub, USB 2.0 Splitter, Multi-Port Portable USB Hub, 480Mbps, Overcurrent Protection (OCP)

Product ID: ST4200MINI2-USB-HUB

Connect up to four USB 2.0 devices to a laptop/PC via a single available USB 2.0 or 3.0 port.

With its compact and lightweight design, this 4-port USB hub is designed for mobility. It features a compact, USB-powered design that makes it perfect for travel. The hub also features small-footprint housing, which means it takes up less desk space. It easily fits into a laptop bag when traveling, allowing you to expand your connection options almost anywhere you need to. It's perfect for connecting common USB devices such as a mouse, keyboard, or flash drive.

This versatile hub features a built-in 6in (15cm) USB cable and is bus-powered, so it draws its power directly from the computer's USB port, reducing clutter and simplifying setup by eliminating the need for an external power adapter.

With all four USB 2.0 ports on one side, this hub makes it easier to access ports to connect or disconnect devices.

The USB Hub is OS independent, supporting all operating systems (Windows, macOS, ChromeOS, and Linux), and installs automatically when connected to a computer.
