

MICRO HDMI CONNECTORS

TE Connectivity's (TE) selection of type D micro high-definition multimedia interface (HDMI) connectors provide the benefits of HDMI technology in a smaller package. These connectors have 72% less surface area than standard HDMI connectors, making them well suited for use in compact devices.

HDMI technology is an interface for consumer electronics products such as digital television, set-top boxes, and multimedia players. HDMI technology supports standard, enhanced or high-definition video plus multi-channel audio through a single cable.

PRODUCT FACTS

- 72% reduced surface area vs. standard HDMI
- 6.4 mm x 2.8 mm
- 19-pin configuration (pin assignment differs from standard and mini HDMI)
- Current rating: 0.5 Amps
- Insulation resistance: 100M Ω min
- Contact voltage rating: 40 VAC
- Temperature rating: -20° C - +85° C
