DURIS® E 2835

GW JTLPS1.KM

The pre-molded 2835 LED version with standard 2835 footprint provides competitive value in application and system level. The DURIS® E 2835 CRI90 provides good efficacy and closing the gap to CRI80. This is important to support energy efficiency regulation while having good quality of light.

Applications

- Indoor Lighting

Features

- Package: white SMT package, colored diffused silicone resin
- Typ. Radiation: 120° (Lambertian emitter)
- Color temperature: 2700K - 6500K
- CRI: 90 (min.), 92 (typ.), R9: 50 (min.)
- ESD: 2 kV acc. to ANSI/ESDA/JEDEC JS-001 (HBM, Class 2)
- Luminous Flux: typ. 36.8 lm @ 4000 K
- Luminous efficacy: typ. 207 lm/W @ 4000 K
- Stable Vf deep dimming at low driving current from 1mA

Ordering Information

Type	Color temperature	Luminous Flux ¹⁾ $I_F = 65 \text{ mA}$ Φ_V	Ordering Code
GW JTLPS1.KM-H3H6-XX38-1-G	2700 K	31.5 ... 37.5 lm	Q65113A8187
GW JTLPS1.KM-H3H6-XX58-1-G	2700 K	31.5 ... 37.5 lm	Q65113A7072

Note:

(1) XX5x refers to 5-step binning. XX3x refers to 3-step binning.

Maximum Ratings

Parameter	Symbol	Values	
Operating Temperature	T_{op}	min.	-40 °C
		max.	105 °C
Storage Temperature	T_{stg}	min.	-40 °C
		max.	105 °C
Junction Temperature	T_j	max.	125 °C
Forward Current $T_j = 25 \text{ }^\circ\text{C}$	I_F	min.	1 mA
Reverse voltage ²⁾	V_R	Not designed for reverse operation	
		2 kV	
ESD withstand voltage acc. to ANSI/ESDA/JEDEC JS-001 (HBM, Class 2)	V_{ESD}		

Note: Ensure the appropriate derating current is being used in order to maintain a junction temperature which is lower than the maximum allowable limit.

Characteristics

$I_F = 65 \text{ mA}$; $T_J = 25^\circ\text{C}$

Parameter	Symbol	Values	
Viewing angle at 50% I_V	2ϕ	typ.	120 °
Forward Voltage ³⁾	V_F	min.	2.60 V
		typ.	2.73 V
		max.	2.80 V
Reverse current ²⁾	I_R	Not designed for reverse operation	
Color Rendering Index ⁴⁾	CRI	min.	90
		typ.	92
Color Rendering Index (R9) ⁴⁾	CRI (R9)	min.	50
Electrical thermal resistance junction/solderpoint with efficiency $\eta_e = 59.79 \%$	$R_{thJS \text{ elec.}}$	typ.	11 K / W

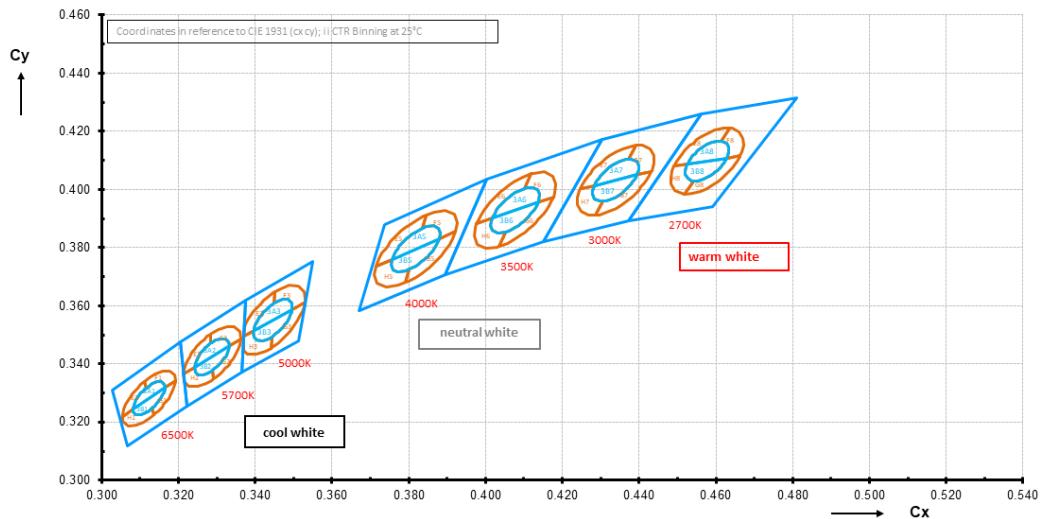

Brightness Groups

Group	Luminous Flux ¹⁾ $I_F = 65 \text{ mA}$ min. Φ_V	Luminous Flux ¹⁾ $I_F = 65 \text{ mA}$ max. Φ_V
H3	31.5 lm	33.0 lm

Barcode-Product-Label (BPL)

Dry Packing Process and Materials

Moisture-sensitive product is packed in a dry bag containing desiccant and a humidity card according JEDEC-STD-033.

Notes

The evaluation of eye safety occurs according to the standard IEC 62471:2006 (photo biological safety of lamps and lamp systems). Within the risk grouping system of this IEC standard, the device specified in this data sheet fall into the class **moderate risk (exposure time 0.25 s)**. Under real circumstances (for exposure time, conditions of the eye pupils, observation distance), it is assumed that no endangerment to the eye exists from these devices. As a matter of principle, however, it should be mentioned that intense light sources have a high secondary exposure potential due to their blinding effect. When looking at bright light sources (e.g. headlights), temporary reduction in visual acuity and afterimages can occur, leading to irritation, annoyance, visual impairment, and even accidents, depending on the situation.

Subcomponents of this device contain, in addition to other substances, metal filled materials including silver. Metal filled materials can be affected by environments that contain traces of aggressive substances. Therefore, we recommend that customers minimize device exposure to aggressive substances during storage, production, and use. Devices that showed visible discoloration when tested using the described tests above did show no performance deviations within failure limits during the stated test duration. Respective failure limits are described in the IEC60810.

This device is designed for specific/recommended applications only. Please consult OSRAM Opto Semiconductors Sales Staff in advance for detailed information on other non-recommended applications (e.g. automotive).

Change management for this component is aligned with the requirements of the lighting market.

For further application related information please visit <https://ams-osram.com/support/application-notes>

Eye safety classification at “moderate risk” is at maximum driving current.

Disclaimer

Attention please!

The information describes the type of component and shall not be considered as assured characteristics. Terms of delivery and rights to change design reserved. Due to technical requirements components may contain dangerous substances.

For information on the types in question please contact our Sales Organization.
If printed or downloaded, please find the latest version on our website.

Packing

Please use the recycling operators known to you. We can also help you – get in touch with your nearest sales office. By agreement we will take packing material back, if it is sorted. You must bear the costs of transport. For packing material that is returned to us unsorted or which we are not obliged to accept, we shall have to invoice you for any costs incurred.

Product and functional safety devices/applications or medical devices/applications

Our components are not developed, constructed or tested for the application as safety relevant component or for the application in medical devices.

Our products are not qualified at module and system level for such application.

In case buyer – or customer supplied by buyer – considers using our components in product safety devices/applications or medical devices/applications, buyer and/or customer has to inform our local sales partner immediately and we and buyer and /or customer will analyze and coordinate the customer-specific request between us and buyer and/or customer.

Glossary

- 1) **Brightness:** Brightness values are measured during a current pulse of typically 45 ms (measurement starts with a delay of 25 ms), with a tolerance of +/- 5%.
- 2) **Reverse Operation:** Not designed for reverse operation. Continuous reverse operation can cause migration and damage of the device.
- 3) **Forward Voltage:** The Forward voltage is measured during a current pulse duration of typically 45 ms (measurement starts with a delay of 25 ms) with a tolerance of ± 0.05V.
- 4) **Color reproduction index:** Color reproduction index values (CRI-RA) are measured during a current pulse of typically 45 ms (measurement starts with a delay of 25 ms) and with a tolerance of ±2. CRI-R9 are measured during a current pulse of typically 45 ms (measurement starts with a delay of 25 ms) and the 4000K with a tolerance of ±6.
- 5) **Typical Values:** Due to the special conditions of the manufacturing processes of semiconductor devices, the typical data or calculated correlations of technical parameters can only reflect statistical figures. These do not necessarily correspond to the actual parameters of each single product, which could differ from the typical data and calculated correlations or the typical characteristic line. If requested, e.g. because of technical improvements, these typ. data will be changed without any further notice.
- 6) **Luminescence:** The red conversion material used in this LED has a significantly slower response time compared to the green conversion material and the blue emitter.
The red converter will fluoresce with a rise and decay time of about 8ms. This may result in a visible red sparkling effect if operated in pulse-width-modulation mode. In order to mitigate such effect please consider DC mode operation or apply appropriate timing in combination with circuit design.
- 7) **Characteristic curve:** In the range where the line of the graph is broken, you must expect higher differences between single devices within one packing unit.
- 8) **Thermal Resistance:** R_{th} max is based on statistic values (6σ) used for Derating.
- 9) **Tolerance of Measure:** Unless otherwise noted in drawing, tolerances are specified with ±0.1 and dimensions are specified in mm.
- 10) **Tape and Reel:** All dimensions and tolerances are specified acc. IEC 60286-3 and specified in mm.

Revision History

Version	Date	Change
1.0	2024-04-30	Initial Version

EU RoHS and China RoHS compliant product

此产品符合欧盟 RoHS 指令的要求；

按照中国的相关法规和标准，

不含有毒有害物质或元素。
