

CRC TFT CLEANER

Ref. : 10807

1. GENERAL DESCRIPTION

Special cleaner for TFT screens and LCD displays. TFT CLEANER is a water based foam cleaner without any solvent, alcohol, white spirit or ammoniac.

2. FEATURES

- Cleaning of sensitive surfaces without stripes
- Works on most common contaminations: fingerprints, nicotine
- Stable foam during an extended period
- Does not drip off from vertical surfaces

3. APPLICATIONS

TFT CLEANER is used to clean TFT and LCD screens on:

- PC monitors
- Notebooks & laptops
- Handies
- Camcorders
- Navigation systems

Also applicable on:

- Touch screens
- CD's
- Scanner
- Copy machines

4. DIRECTIONS

- Shake the aerosol well before use.
- Spray a thin layer on the contamination and wipe of with a lint free cloth
- For heavy contaminations, the active foam can be allowed a longer time to act.
- The product must NOT come into the inner electrical parts of the cleaned device. For this reason we recommend not to apply the product direct on the screen of laptops (and devices suchlike) but spray the product on the lint free cloth and wipe of the surface with the moistened cloth.
- The cleaner TFT CLEANER is according to our knowledge and experience compatible with sensitive surfaces as coated screens (e.g. anti reflection coatings). Still we recommend to follow the instructions given by the manufacturer of the device to be cleaned.
