

Pinnacle Studio MovieBox USB Video Capture

Studio MovieBox USB makes video editing accessible to everyone. Thanks to the stylish, high quality external device, copy analogue and digital videos onto your PC without compromising quality or fiddling with complicated connections. Easy to use, Studio MovieBox USB can be connected via a USB 2.0 port for high speed, higher quality video capture. You can then use the award winning Pinnacle Studio 8 software to edit home movies. When you're satisfied with the final product, copy it back to videotape or store it on CDs or DVDs, making your movies easier to watch and share.
