## Sunsei Solar Charger SE-135

**Solar powered battery trickle charger (2 W)**

Perfect match for cars ATVs and other small vehicles. Protects against natural battery discharge and electronic drain so no more worries about empty batteries. The Sunsei Solar Charger provides immediate trickle-charge when exposed to daylight even through windows or windshields.

- > Extends the life of your battery and prevents dead batteries
- > Engineered to maintain your 12V starting battery
- > Touch action indicator lets you know the panel is charging
- > Plug'n'Play®, mounts virtually anywhere, suction cups included (no extra mounting devices needed)
- > Good news: this compact panel doesn't need a charge controller

Specifications	
Model number	SE-135
Item number	25001
UPC-code	7 75540 25001 6
Power	135mA, 15V (2 W)
Case protection	Not weather proof
Warranty	10 year power warranty
