Sunsei Solar Charger SE-400

Solar powered battery trickle charger (6 W)

Perfect match for medium sized boats, RVs, trucks and tractors. Protects against natural battery discharge and electronic drain so no more worries about empty batteries. Can also be used to charge portable electronics, deer feeders, gate openers, fence chargers.

- > The Sunsei Solar Charger provides immediate Trickle-charge when exposed to daylight, even on cloudy days
- > Engineered to maintain your 12V deep cycle batteries
- > Touch action indicator lets you know the panel is charging
- > Mounting screws included
- > Plug'n'Play® for quick connections, connect multiple panels in seconds without tools or rewiring
