

ImageMate® Multi-Card USB 2.0 Reader

EMEA

Description:

Transfer your files to your PC quickly, easily and safely with this USB reader. It works with many popular types of memory cards. With read/write speeds of up to 30MB/s*, this is one of the fastest USB 2.0 readers you can find. The included metal stand lets you easily detach the reader and slip it into your notebook bag. Press the transfer button on top of the reader to automatically launch your favorite application or web site when transferring or editing your files. And when you're all done, stand back and admire your work and your Multi-Card reader, sleekly styled to look great on your desk.

Features List:

- Fast, sleek and reliable USB reader for popular memory card formats
- Up to 30MBps* transfer speed
- Launch button to start your favorite application
- Detachable metal stand included

Supported card formats (without the need for an adapter):

- SD™
- SDHC™
- MultiMediaCard™
- MMC*plus*™
- MMC*mobile*™
