CB RADIO

The Maxon CM10 Multi Standard CB Radio is probably the best entry level CB we have seen. It has a simple, dynamic and modern design and features a large LED display, Volume and Squelch controls, Up/Down and Channel 9/19 buttons, Auto-squelch, plus a high quality condenser microphone.

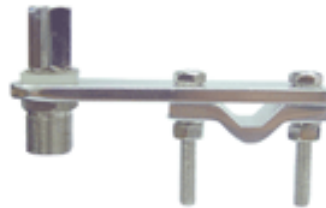

Maxon have produced a CB Radio of **exceptional build quality** and value for money. It is a basic, user friendly radio ideal for anyone new to CB or looking for a hardwearing and yet practical rig.

THUNDERPOLE

MIRROR MOUNT KIT

A CB Radio antenna mount designed to clamp onto the horizontal arm of a mirror; roof rack, etc. Kit comes complete with Stud mount, RG58 cable (3 meters) & fitted PL259 plug. Will fit on arm from 8mm up to 25mm diameter.

THUNDERPOLE

MINI ORBITOR

Base Load

- Power Handling: 2000 Watts
- Length: 0.89m
- Coil Length: 130mm
- Coil Diameter: 45mm
- Impedance: 50 Ohms
- Frequency: 26-28 MHz
- SWR: 1:1.5
- Whip: 17.7 ph Stainless Steel

The 'Mini Orbitor' is a small spring coiled baseload CB Antenna from Thunderpole.

It is ideal for most vehicles as it is pre-tuned and has a large spring coil that gives it top-end performance and also withstands most knocks and bumps, which makes it suitable for more demanding applications, such as off-roading.
