

Examples from the 3M™ Bumpon™ protective product standard range

The last 2 numbers of each product indicate the sizes (ex. 5023 has the same size as 5323)

SJ-5382 Transparent
↑ 1.9 mm Ø 6.4 mm

SJ-5007 Black
↑ 10.2 mm ↔ 2.5 mm

SJ-5705 Black
↑ 31.8 mm ↔ 6.1 mm

SJ-5076 Black
↑ 2.8 mm Ø 8 mm

SJ-5302 Transparent
↑ 2.2 mm Ø 7.9 mm

SJ-5008 Black, gray, white, brown
↑ 12.7 mm ↔ 3.1 mm

SJ-5510 Black, gray, white, brown
↑ 12.7 mm ↔ 3.8 mm

SJ-5012 Black, gray, white, brown
↑ 3.5 mm Ø 12.7 mm

SJ-5306 Transparent
↑ 3.8 mm Ø 9.5 mm

SJ-5018 Black, gray, white, brown
↑ 12.7 mm ↔ 5.8 mm

SJ-5003 Black, gray, white, brown
↑ 5 mm Ø 11.1 mm

SJ-5744 Black
↑ 4 mm Ø 19 mm

SJ-5378 Transparent
↑ 3.3 mm Ø 10.2 mm

SJ-5023 Black, gray, white, brown
↑ 20.6 mm ↔ 7.6 mm

SJ-5027 Black, gray, white, brown
↑ 7.9 mm Ø 16 mm

SJ-6553 Ultra Soft Transparent
↑ 11 mm Ø 3.05 mm

SJ-5303 Transparent
↑ 5 mm Ø 11.1 mm

SJ-5323 Transparent
↑ 20.5 mm ↔ 7.6 mm

SJ-5017 Black, gray, white, brown
↑ 9.6 mm Ø 19 mm

SJ-5201 Light Brown
↑ 3.2 mm Ø 11 mm

SJ-5312 Transparent
↑ 3.5 mm Ø 12.7 mm

SJ-5514 Black, gray, white
↑ 20.6 mm ↔ 13.2 mm

SJ-5009 Black, gray, white, brown
↑ 10.1 mm Ø 22.3 mm

SJ-5406 Ultra White
↑ 3.8 mm Ø 9.5 mm

Applications for Industrial Use

Bumpon protectors serve as high performance feet, stops or spacers. They absorb vibrations and noise and stick to most surfaces. Bumpon protectors are made from polyurethane which offers excellent non-slip properties and will not mark surfaces.

Bumpon protectors are available in a large variety of colours and transparent, in various shapes and sizes, and can be die-cut for your specific requirements.

As shock absorbers and non slip spacers on ...

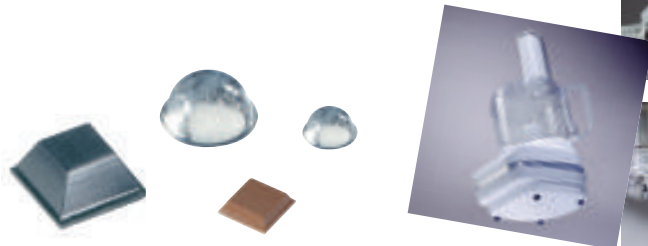

...work tops, chopping boards, PCBs and unit assemblies.

As skid-resistant, vibration absorbing feet ...

...on household appliances, sewing machines, computers, calculators, telephones, televisions, instruments and hi-fi's.

An aid to manoeuvrability ...

...low friction 'easy slide' Bumpons help to move heavy items across smooth surfaces effortlessly.

As noise absorbing and highly durable bumpers ...

...on doors, drawers, windows, walls, furniture and inside equipment.

It's simple to save time and money ...

...because these self-adhesive protectors are fast replacing screw-on, rivetted and push-in feet. No more time consuming drilling and screwing! Just peel the bumpon protectors off the liner and apply them.

3M Bumpon Protectors ...

...are made of high quality polyurethane and are coated with a high performance permanent adhesive. They will not crack or harden and are resistant against most solvents. They are attached easily and can be inconspicuous in use!

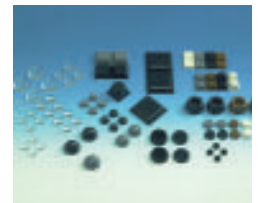

The Transparent range ...

...allows you to use the protectors on glass, acrylic or coloured surfaces (wood, plastic, metal) without adversely affecting the appearance of your product, both the polyurethane and the adhesive will resist yellowing with age.

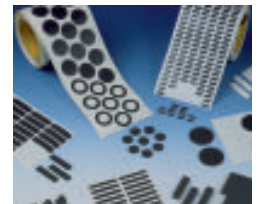

Soft Clear range ...

...retains all of the qualities of the Transparent range with the added advantages of superior sound damping, the soft crystal clear polyurethane doesn't dry out like rubber giving years of unnoticed service. An ingenious solution to slamming doors and draws!

Our design-oriented standard range ...

...contains square, round and rectangular protectors in colours including grey, white and black. They are available in various heights, widths and diameters.

Die-cut Bumpon protectors ...

...are cut from polyurethane roll-material. You decide on the shape and the colour.

Customised Bumpon protectors ...

...offer you unlimited possibilities, with a minimum order of 30,000 pieces you can create your own protector, no matter what shape or colour. The colour can exactly match your product and you can plan the shape yourself from an early stage in the design process.
