

VTX3D HD 5450 512MB DDR2

- Model: VX5450 512MD2-HV2
- Graphics Engine: RADEON HD 5450
- Video Memory: 512MB DDR2
- Memory Interface: 64bit
- DirectX® Support: 11
- Bus Standard: PCI Express 2.1
- Core Speed: 650MHz
- Memory Speed: 400MHz X2
- VGA Output: On Board
- DVI Output: On Board
- HDMI Support: On Board
- Minimum System Power Req. 350W

Features

Redefine HD Gaming

With more than twice the processing power of previous generation AMD discrete graphics cards, ATI Radeon HD 5400 Series graphics cards deliver a cinematic gaming experience and unprecedented performance.

- PCI Express® 2.1 x16 bus interface
 - 64-bit DDR2 memory interface
 - Microsoft® DirectX® 11 support
1. Dual channel interconnect is not required for CrossFireX, and may not be included in all product configurations.
 2. Some custom resolutions require user configuration.
 3. Playing HDCP content requires additional HDCP ready components, including but not limited to an HDCP ready monitor, Blu-ray or HD DVD disc drive, multimedia application and computer operating system.
 4. Subject to digital rights management limitations; maximum supported audio stream bandwidth is 6.144 Mbps.
 5. ATI PowerPlay™ technology consists of numerous power saving features. Not all features may be available in all ATI Radeon HD 5400 Series graphics cards.
 6. ATI Avivo™ HD is a technology platform that includes a broad set of capabilities offered by certain ATI Radeon™ HD GPUs. Not all products have all features and full enablement of some ATI Avivo™ HD capabilities may require complementary products.
