The ideal solution for faster USB3.0 data transfers

Looking to retrieve data quickly and safely from an existing 3.5-inch or 2.5-inch Hard Disk/SSD using super-fast USB3.0 technology?

The new **USB3.0-HDK-M** is a new generation of desktop chassis that allows immediate SATA interface connection by simply sliding the Hard Disk or SSD, be it a 2.5 or 3.5-inch form factor.

Newly designed exterior with of course upgraded electronics within this stylish chassis, Dynamode builds upon many years of experience in supplying high-performance yet cost-effective storage devices. Capable of supporting the new SATA III* interface for both HDD or SSD operations, simply insert your existing storage device and beginning copy straight away, no messing with cables, ports or power cords.

Full status LEDs show at a glance the current operation, full Windows10(tm) and Mac(tm) OS X compliance is also backed up with support for other Operating Systems including the Linux(tm) run-time.

specifications:

Drop-in connection for 2.5 and 3.5-inch HDU/SSD

Supports SATA I/II/III, up to 5Gbps*

USB3.0 Plug n' Play interface

Unique 1-button backup facility (*windows only*)

Status LEDs for data activity and power

Supplied high-performance power supply

No limit on storage capacity enclosure can support*

Ideal for Windows10(tm), Mac(tm) OS X, Linux(tm) etc

Supports most third-party backup storage applications

Superior USB3.0 performance - transfer data in an instant

May depend on computer BIOS

* Depends on drive device
