## Smart Thermostat

Monitor and set the heating  
in your home

amazon alexa

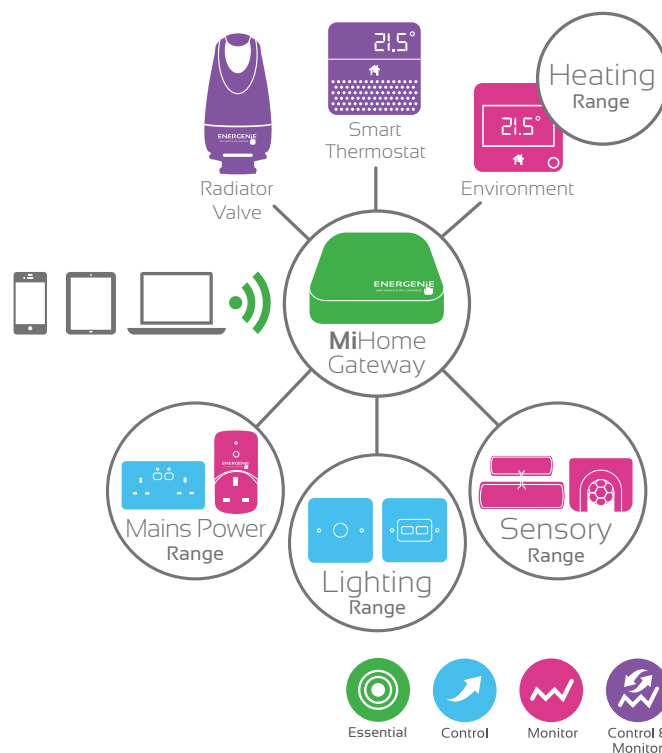

### Product Description

The MiHome Thermostat is part of Energenie's heating range of products and part of the MiHome home automation heating range. The MiHome thermostat is suitable for switching any standard domestic boiler. It has the same features as all MiHome products, for example timers and geofencing. It also has IFTTT integration and can be controlled by voice control through the Amazon Alexa.
