15W Wall Loudspeaker

Microlite Plus

MICROLITE PLUS WALL LOUDSPEAKER

The Microlite Plus is a small, 15 watt ms, high quality, weather-resistant loudspeaker for use in retail environments such as department stores, and in other public meeting places such as clubs, pubs and wine bars. The speaker can be used on 100 volt line or low impedance systems and comes complete with an adjustable ball-and-socket bracket and U-bracket fixings. The tapping selector and terminals are protected by a plastic cover. The loudspeaker is available in black or white.
