

### SIGNET 1J DESK MICROPHONE

A generic range of wired desk microphones has been manufactured to compliment the majority of public address amplifiers. The series comprises single zone (with a range of different fitted plugs), 2 zone, 4 zone and 8 zone units which are also available with either 4 way or 8 way switching relays.

The Signet 1J is a desk paging microphone with a single press-to-talk button and fitted with a inch jack plug.

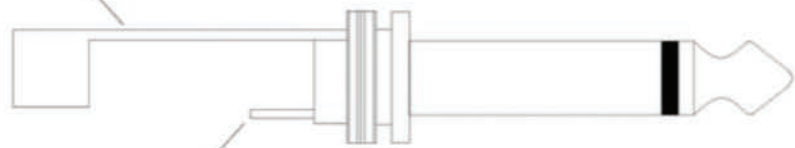

- .Desk paging microphone.
- .Single zone press-to-talk button.
- .Fitted with a inch jack plug.
