Memorandum 21451
Reference PCN-17322 and PCN-19471

November 13, 2021

Dear Valued Customers,

Subject: MSL Level Change

This is to inform you that all LinkSwitch-CV products are now rated as MSL1. The LinkSwitch-CV products from an alternative qualified process introduced on September 22, 2017 (PCN-17322) at Seiko-Epson at Sakata, Japan and Lapis Kagoshima on December 11, 2019 (PCN-19471) are MSL1.

The products prior to PCN-17322 were MSL4 and Power Integrations chose to ship all products as MSL4 during the period when both MSL4 and MSL1 products were shipped.

Part Numbers	Package
LNK623DG-TL, LNK623DG0166-TL, LNK623DG0225-TL, LNK624DG-TL	SO-8C

Though the above-mentioned part numbers are classified as MSL1, you may receive the above-mentioned products with MSL4 label instead of MSL1 label during the transition. MSL4 packaging and shipment are done with more protection against moisture absorption, so there is no adverse impact on the product quality. We regret any inconvenience caused.

Please contact your regional Power Integrations sales office if you have any questions or need further assistance.

Sincerely,

Esther Hui
Senior Quality Assurance Manager
