**Subject :** SNR series relay adding alternative material for relay cover

**Description of Change :** Global markets are facing shortages in resins. To limit the risks of line stops in near future TE is introducing an alternative material besides the current resin material for the cover of the SNR relay series. New materials was fully qualified according the current valid product specifications, UL and VDE certificates covering the material being used. The alternative material colour appears slightly lighter. The Relay form (dimensions), features and rankings keep unchanged. TE plan to use the alternative material only in case of of shortage of current material.
