## ELECTRONICS STARTER KIT FOR MICRO:BIT KIT

V1D - 2020-07-09

This kit contains everything needed to start learning about connecting electronics to the micro:bit in an accessible and easy manner. Everything is connected using the supplied alligator clips, so no soldering required.

### Contents

| Qty | Item   |
|-----|--|
| 1   | MonkMakes Speaker for micro:bit              |
| 1   | MonkMakes Relay for micro:bit                |
| 1   | MonkMakes Sensor Board for micro:bit         |
| 1   | Set of alligator clip leads (10 leads)       |
| 1   | Small motor with fan                         |
| 1   | Single AA battery box (battery not included) |
| 1   | Light bulb and holder                        |
| 1   | Booklet (A5)                                 |

### Dimensions and Weight (closed box)

|        |     | Units |
|--------|-----|-------|
| Length | 230 | mm    |
| Width  | 165 | mm    |
| Height | 22  | mm    |
| Weight | 232 | g     |

### Compliance
