Overview Description of Change

- In the aim of improving customer experience, changes will be made to Mini50 34w/38w right angle headers, to eliminate the issues of pin push-out and PAP tilting.
 - Change the pin insertion direction to enlarge pin retention force and avoid pin push-out
 - Add locking feature on the PAP and header housing to enlarge PAP retention force
- Product Impact:
 - The new part performance will be the same as current design
 - No impact to customer application
 - No change to the receptacle side
 - Current part numbers will be discontinued and replaced by new part numbers
- Part Number Impact: see attached impacted parts list
- Level 4 PPAP will be available upon request from June 20th, 2022. Request for PPAP must occur by June 20th, 2022. Submissions will not occur without request.
 - If PPAP requested, disposition response is required within 5 days of submit date, or it will be considered approved.
 - If no PPAP requested by June 20th, 2022, the PPAP will be considered approved.
 - The current Mini50 34/38W right angle header part numbers will be available until further Obsolescence Notice is released.
