

520 Park East Blvd., New Albany, IN 47150 U.S.A
(812)-944-6733 / 1-800-SAMTEC9

Product Change Notification

1. ECR #: 219685
Notification #: 663

2. Date of Announcement: January 10, 2023

3. Series:

- SEM - .8MM TIGER EYE MICRO SOCKET
- SEML - .8MM TIGER EYE MICRO SOCKET

4. Part #'s Affected

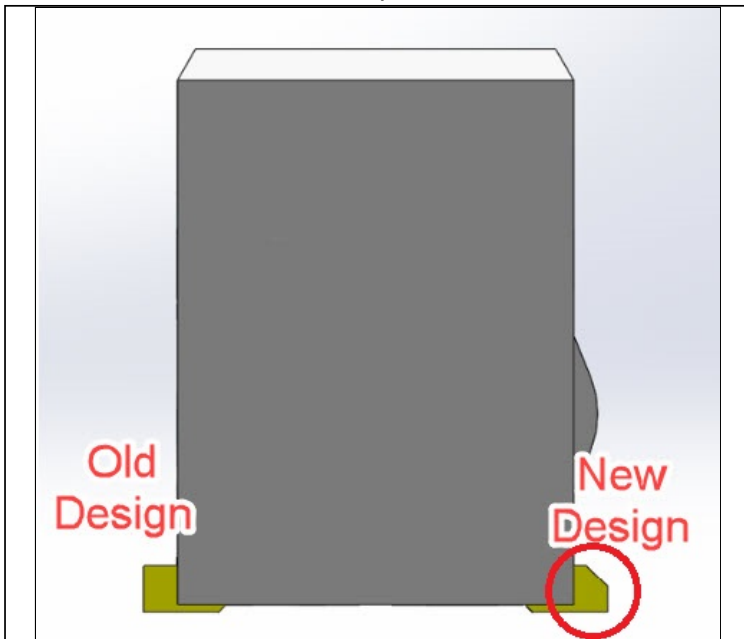

- SEMX

5. Description of Change:

Small chamfer added to top side of solder tail.

6. Method of Identifying Change

Minor visual difference to the top corner of the solder tail.

Circled on the right is the new pin tail with the added chamfer.

7. Reason for Change:

This is a rolling change that has been made to improve mating clearances with Samtec's TEM connector for maximum material condition tolerance stacks. This is a Form/Visual change only, with no effect on Fit or Function. This change is also backwards compatible.

8. Impact of Change on Form, Fit, or Function:

- Form - Visual

9. Projected Implementation Date: February 09, 2023

Disclaimer

Please review the change notification details listed above for specific information regarding the nature and timing of the change. While Samtec has taken precautions to ensure this change is not detrimental to your application, each application can be unique and therefore customers should consider the effect of the change on their specific application.

Samtec has taken efforts to ensure that all users of this product who have requested change notifications have been informed. However, you should assume that this is the only notification that will be sent and you, as the recipient, must determine how to communicate this information to your organization(s) and customer(s) as appropriate. If you wish to opt out of receiving Samtec Product Change Notification emails, please contact CustomerECN@samtec.com. Due to technical progress, specifications are subject to change without notification and it is recommended to provide an alternative contact when opting out.

Please contact Samtec at CustomerECN@samtec.com for any questions related to this change.
