Subject: Marking change from UR to cURus for specific Cartridge fuses

With regards to the above reference, Littelfuse would like to inform you that the UR marking on fuse caps and label would be changed from  to  for specific Cartridge fuses.

Please refer to the below example for the details for this change.

	Before	After
Label		
Fuse Marking on caps		

For all the affected part numbers, the fuses were actually certified to cURus many years ago. As such, this change is to make the marking on the fuse caps and label consistent with what the fuses were certified to.

There are no changes to the existing certificates, no changes in the form, fit and function of the fuses. There is no change to the part number.

We would do the running change for shipments from Jul.15<sup>th</sup>, 2023 onwards

Part numbers affected are shown on the Excel sheet as per attached.

Please let us know should you have further queries.

Best Regards;
