Description and purpose of change: To improve the processability, Würth Elektronik will change the plating procedure from barrel plating to line plating. This modification result by a small change in appearance of the shielding. Additionally, as a datasheet correction, Würth Elektronik will remove the Halogen Free certification and logo on datasheet. All products with date code 2023-12-10 or later, will be affected by this change. There will be no change in fit, function, quality or reliability of the product.					
Detail of Change: <table border="1" style="width: 100%;"> <thead> <tr> <th style="color: red;">Before Change</th> <th style="color: green;">After Change</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">  </td> <td style="text-align: center;">  The shielding shape is changed in order to have a small cutting area (in yellow) </td> </tr> </tbody> </table>		Before Change	After Change		 The shielding shape is changed in order to have a small cutting area (in yellow)

Reliability / Qualification Summary:																					
Product approval is according to the specification criteria and is internally released by the Product Management Department.																					
The following items are part of the internal release process:																					
<ul style="list-style-type: none"> - Visual Appearance - Environment Parameters (Humidity) - Approval of plating process line
