

Business Unit: Electronics **PCN/21/019/C+N-US**
Product Range: Network Interface Connectors / M23 **Date:** 05/03/2023
Title: **Design change of M23 angled housings - External** Page 1/1

Details of the Product Changes

1. Concerned Part Numbers
09151000902 09156000902 09156000912
2. Description of Changes/News
<p>We need to inform you that contrary to what was written in the PCN of May 2021 we have to consider some restrictions on the use of the new enclosures! → For details please look at: “3. Impact on product specification”</p> <p>We informed you about the change of angled rotatable housings of our M23 circular connector Portfolio. Instead of the hinge that connected the upper part of the housing with the flange, these two parts are now separated and can be fixed from above the connector with a screw.</p> <p>This change is a combination of a design and feature adjustment. Besides the optimization from design point of view, it has also positive effects on the assembly process and a higher robustness.</p> <p>This change is concerning the rotatable device housings with flange from M23 Signal and M23 Power/Hybrid Portfolio.</p>
