Change Notification / Plant Move

PCN # 113579 Rev C.
Issued Date: ~~12-Jan-24~~ 18-Apr-24
Issued By: Kathy Smith for John Vines
Author: John Vines
Revised: ~~12-Jan-24~~ 18-Apr-24

Change affects whole product family?

YES

Part #'s affected (See attached if entire product family is affected)

Product Families: Light Pipes; Circuit Board Indicators, PRISM SMD CBI
Move will also alter the "Ship From" location for the discrete through-hole LEDs. surface mount discrete LEDs and selected OPC series optics / See Address sheet for new Address location

Description of Change:

Moving the existing facility in Penang, Malaysia to a new facility in Penang, Malaysia 2 blocks (150 m) away. There will be no change to current BOMs, standard operating procedures, staffing or equipment. New building configuration will allow for all production lines to be moved to the new facilities and maintain the exact layout of production lines as the current building. The new site will be fully qualified by Dialight Operations, Engineering and Quality teams.

Reason for Change:

Lease on existing building expiring. Move to new facility 2 blocks (150m) away required to provide improved efficiencies and capacity utilization to better support Dialight component's customers demands.

Part Number affected

See additional sheet

Disposition of Old Product:

All Product Series will remain the same with no impact on Form, Fit, Function and Reliability of parts. This is a facility change only and we retain with the original personnel (operators and engineers) as well as adding some additional operators.

Expected Implementation Date: 6/1/2024

Customer Feedback Expected by:

Additional Comments: (Include Potential Risks if Appropriate)

Product is form, fit, function and reliability the same with only a facility move to an alternate Penang, Malaysia site.

Supporting Qualification Data:

Available Upon request once completed. We will perform pilot control runs on some series prior to implementation and perform first article inspections and some internal qualification prior to implementation.

Key Dates

Task	Date
Last production current facility:	5/31/2024
Transefer of materials, machinery and production lines	6/1 to 6/30/2024
Product Family qualification production and test	7/1 to 7/15/2024
Fine tune and ramp up production	7/15 to 7/31/2024
Facility to full production capability	8/1/2024
ISO certification of facility	To be scheduled
