Traceability Code Markings / Date :	Lot information on label		

Before Picture

Conversion from brass to steel screws to optimize production process and guarantee deliveries to our customers

Before**After**

After Picture

Overview

Description of Change:

We are transitioning to steel screws in response to feedback regarding the performance of brass screws under varying tolerance levels. This change aims to enhance product reliability and ensure consistent quality.

Product Impact:

There will be no impact on the fit, form, or function of the product, as only the screw material is being changed to steel.

Implementation:

The switch to steel screws will be implemented immediately to address concerns and uphold our commitment to delivering high-quality products.
