

HED251 | HED261

Electronic Switch Closure Totalizer

The HED 251-T/261-T are miniature electronic counters (24mm x 48mm) designed for either direct PCB mounting or panel mounting and is ideally suited to battery powered applications. With 4 digit (HED 251) and 8 digit with upto 10kHz high speed input (HED 261) options, these totalizers feature the latest CMOS circuitry to achieve very low quiescent current consumption and are backlit for visibility. The HED counters are ideal for contact closure and reed switch signal inputs and are suitable for a range of OEM applications.

Key Features

- Uses the latest CMOS circuitry to achieve very low quiescent current consumption
- 10mm/8mm black character high contrast LCD display
- Integral backlight
- Counts pulses up to 18Hz frequency (HED251) or 20Hz/10kHz (HE261)
- External reset input
- CE and RoHS compliant

Specifications

	HED 251	HED 261
Display	4 digit, black LCD, 10mm characters Leading zeros blanking	8 digit, black LCD, 8mm characters Leading zeros blanking
Count Range	0-9999	0-99999999
Count Input	Contact closure open collector input. 18Hz max, negative edge triggered, 0.7V threshold 1.8V max, 25mS min pulse width	<ul style="list-style-type: none"> High speed input (pin3) 10kHz max negative edge triggered, 0.7V threshold 18V max, 50uS min pulse width Contact closure open collector input (pin2). 20Hz max, negative edge triggered, 0.7V threshold 18V max, 15mS min pulse width
Supply voltage	3.0 VDC	2.7 – 3.3V DC
Count Speed	Up to 18 Hz	Up to 20Hz and 10kHz
Current consumption	Counter - <10µA, typically 5µA, backlight - 40mA max	
Operating Temperature	-10°C to +50°C	
Storage Temperature	-20°C to +70°C	
Certifications	CE, RoHS	
Reset Option	Non-Reset
