

ESD Water Bottle

8oz

multicomp **PRO**

RoHS
Compliant

Description

Our bottles have been produced using a new process utilising a concentrate that does not contain any Exthoxylated Tertiary Amine, which is widely used as an antistatic agent. These ESD safe bottles have an average surface resistivity of 10^9 to $10^{10} \Omega$ / square and do not have any less desirable features associated with surfactant laden material.

These bottles will dissipate a static charge of $\pm 5000V$ in less than two seconds at 40% relative humidity. By their chemical nature, they will not have any chemical reactivity with solvents such as TCE or alcohol.

Features

- 8oz Bottle
- Non greasy
- Cleanroom safe
- Static Free
- No Tertiary Amines
- Humidity Independent
- Surface Resistivity: $10^9 - 10^{10} \Omega/sq$
- Helps to Meet ESD-T20.20 ANSI/ESD S20.20
