HF relay series - New Armature Version Introduction

General Description of Changes

The new armature variant is being introduced alongside the existing one. This version offers unchanged performance characteristics while remaining fully compatible with existing design.

The current armature version	The new armature version
	

Reason for Changes:

Manufacturing Flexibility Offering the second version allows for production adaptability based on supply chain availability. CO Emissions Reduction The new armature is designed with more sustainable materials and an optimized manufacturing process, resulting in a lower carbon footprint compared to the current armature. Same Functional Fit Functionality of all HF relays remains unchanged without requiring any design changes.
